

COCKTAILS I LOVE AND USE IN SALON TO ENJOY AT HOME

A few “recipes” using
Innersense + Cult & King
that consistently slap.

Waves + Curls + Coils:

1. Sweet Spirit Leave In + Quiet Calm Curl Control + I Create Lift Foam

Great for those with medium to coarse curly or coily hair types that crave hydration for soft, bouncy curls without a strong cast.

2. Sweet Spirit Leave In + I Create Curl Memory Gel + I Create Lift Foam

For fine to medium hair, hair that needs more definition, and lighter hydration, I love this combo. It may dry with a cast, so breaking the cast will be an essential step once the hair is fully dry.

3. Sweet Spirit Leave In + I Create Lift Foam

For those with fine to medium hair that want softer, more natural, yet defined curls.

4. Sweet Spirit Leave In + JELLY + I Create Lift Foam

Softer, grunge/beach curls and waves. Amazing volume when diffused.

5. TONIK + VEGAN BALM

Gel = stronger hold + curl memory + longevity.

6. Oil or Serum (Dry Hair Only)

Finishing step. Adds shine & smooths flyaways.

Do not put oils on damp curls unless you enjoy chaos.

7. Texture / Hairspray / Finishing Mist (Optional)

Lock it all in without weighing it down.
